*New concept in child care and learning
for ages 6 weeks through 12 years
including summer camp for school ages.*

Tour the spacious, clean, and colorful facilities at Kid City and you will leave wishing you could be a kid again – a Kid City kid! At their modern and inventive child care center, Kim Symons and her mother-in-law Regina Symons have raised the concept of “daycare” to a new and exciting level.

Parents will first notice the classrooms. Bright and spacious with plenty of arts and crafts supplies, toys, and learning materials to engage a child’s active mind and natural curiosity. Many rooms have lofts and home centers for pretend play and table toys that explore science, mag-

nets and puzzles to encourage early development of skills. Kid City 1 is proud of their cafeteria, complete with a stage. They want children to experience getting up in front of others and to feel like a winner!

With student/teacher ratios well below state minimum standards, smaller class sizes allow Kid City teachers and care providers more one-on-one attention with the children. Kid City uses the Adaycare.com curriculum for infants and toddlers and the A BEKA curriculum for two-year-old classes through private kindergarten.

Then there’s the parent gym for all parents and employees who would like to incorporate fitness into their busy schedules. “Fitness is a huge part of my life,” Kim says. “I am excited to offer Kid City parents a chance to workout when it’s convenient for them and I’m proud to say that this is something no other child care center offers!”

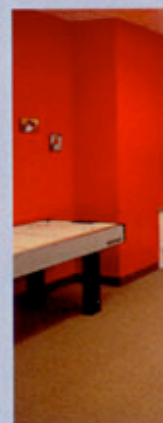

Plus, cameras in every room and even on the playground allow parents secure monitoring of their child’s daily activities on the internet. Kid City’s awesome playground includes Three Shaded Outdoor Age-Appropriate Play Areas with Tricycles and Tricycle Paths, Tennis/Sports Court, Water Fun Activity Area and other fun amenities.

After school is COOL at Kid City! After-schoolers are able to select the area that they are interested in for the day. These include Computer Room, Playstation Gaming Center, Movie Theater, or Arts & Crafts

Center. In Kid City 2, children have their snacks in a ‘50s Diner!

All of this began with a dream shared by Kim and Regina Symons. Kim began working in childcare as a two-year-old classroom teacher over 10 years ago. “I quickly fell in love with making a difference in the lives of children,” she says. “I believe that my teachers and I have the most important job in the world – caring for children. My goal is to provide each and every child at my center a warm, loving environment that promotes self-esteem and a love of learning.”

Regina retired after 30 years of teaching, then built a very successful national cheer company, Cheer Power. “I have been involved with youth activities such as cheerleading, drill teams, and drama all my

Regina says. "We are a true 'kid family' and understand the importance of creating an atmosphere with both activities and learning, where self esteem can be built."

As the director and designer of Kid City, Kim oversees all of the daily operations of the center including greeting and communicating with parents about their child's day and visiting the classrooms to ensure that the quality of the center is upheld.

To support and assist with the daily demands of Kid City, Kim relies on Regina's

experience and advice. "Regina has always believed in me and been my inspiration," she says. "She is an amazing business woman who has taught me to believe in myself and always strive for the best. Because of her influence, I have pushed myself to achieve goals I never thought were possible."

Kid City is a state licensed child care facility that offers age appropriate curriculum, nutritionally balanced meals, secure entrances for your child, camera monitored access, extracurricular activities, private kindergarten, well trained staff, the lowest child to staff ratios in the area, and so much more.

You are invited to visit any time during business hours. Plan on staying a while – there's plenty to see, and Kid City will bring out the kid in you!

303 Spruce (on FM-646), Dickinson, TX 77539

In Kim's Own Words:

ON OVERCOMING CHALLENGE: I believe that everything is a learning experience. In business, read all you can, seek advice from mentors, go to classes. When challenges come your way, work through them, try your best, and learn from them for the future.

ONE THING I WOULD LIKE TO CHANGE ABOUT THE WORLD:

I would love to see each child in the world raised in an encouraging, healthy environment. Our world would be a much different place if the focus was put back on our children and the family. It would make such a difference in future generations.

THE "SECRET" TO SUCCESS: Surround yourself with those who build you up and believe in the dreams that you have for yourself. You will need these special people to lean on in times of doubt. Keep pushing yourself to be the best. Sometimes you are capable of so much more than you think.

In Regina's Own Words:

TO INSPIRE WOMEN: You are as good as you think you are. An old saying, but so very true.

MY PHILOSOPHY FOR LIFE AND WORK: Never be afraid to do what you love and love what you do. Step out of your comfort zone and go for it! Hard work will get you where you need to be.
